

# PRINZ STAMP MOUNTS & PRODUCTS ORDER FORM - MARCH 2021

Our latest Prinz brochure does not include prices so please use this order form and price list to calculate your order total. We also accept orders via our website or by telephone. If you have any questions relating to any of our products please feel free to contact us for help or assistance.

We have reduced some of the range of cut to size stamp mounts as we have found that these are becoming less popular. We can make custom size stamp mounts in any size, minimum quantity is 1,000 mounts.

Prinz have added a range of coin products to their brochure - not all of these items are held in stock but are available to order.

## Standard Top Opening Stamp Mounts

Designed to allow you to safely mount your mint stamps without the need to affix anything to the stamp. Stamp mounts have an adhesive backing, which only need to be lightly moistened to affix to your album pages. Mounts are available in black backed or clear backed, in cut to size or in strips for you to cut to size using a suitable cutter. Prinz stamp mounts have an undistorted crystal clear top foil and use archival safe materials. To help secure larger items the stamp mounts listed for blocks will have both a top and bottom seam - so are only open on the side.

## Gard back Opening Stamp Mounts

The Gard style mount is sealed on both the top and bottom of the mount and is split in the middle of the back of the stamp mount. This style is designed to hold the stamp, block or larger item much more securely - ideal for heavier items, you only need to lightly moisten the top half of the backing.
